

PLCC 3535

PLCC 3535 Series can reach 100lm@350mA in Warm White and provide CRI 80 in every color temperature. The great performance products can be used as the light source of PAR series, LED bulb, down light and general luminaire.

Features :

- High lm/\$, high CRI and high light extraction efficiency
- Maximum drive current up to 700mA
- Low thermal resistance as low as 8 °C/W

Applications :

- General luminaire
- Bulb
- Downlight
