

## 9W Blue LightBar

PLCC Blue LightBar modules are LED linear light strips. The product is for lighting manufacturers who intend to replace their linear fluorescent luminaires into LED solutions. Besides, the LED strip can be applied with Remote phosphor or to create totally new shapes and concepts.

### Features :

- Long-life, low-power consumption
- High brightness
- Satisfactory performance in the low-temperature optical and electrical properties

### Applications :

- Tube light
- Task light
- Linear pendant light
