

Federal 5050

Federal 5050 is a small and bright multi-chip LED which provides multicolor packaging flexibility. The multi-color LEDs (RGBW/ RGBA) are especially suitable for stage lights, and with its smallest dimensions in the world, enables a higher flexibility for optical design.

Features :

- High lumen/lux performance
- Promising lumen maintenance characteristics
- Level 1 on JEDEC moisture sensitivity analysis

Applications :

- Stage lighting
- Street lights
- Spot lights
- Medical Use
